Billing Overview

Paid Media

With our Paid Media, **the budget you request on the IO is exactly what will run in the platform.** Want to run \$5,000 of Meta ads? Submit that dollar amount on the IO and that's what will go directly in the platform. \$3,000 of Google Ads? Same exact deal. The budget from the order goes directly in the platform and the associated management fee is billed on top. In the case of the \$5,000 Meta order, a \$749.50 management fee (14.99%) will be charged for the \$5,000 that is run in the platform.

Platforms Included: Google Ads, Microsoft Ads, Meta, TikTok, Snapchat, Pinterest, LinkedIn, YouTube, Spotify, Custom Display, Custom Video, Custom OTT, Custom Audio.

Programmatic

With Programmatic, **impressions are the main deliverable.** When you go to submit an IO for a Programmatic solution, impressions (or sends for Email) are what you'll be submitting and will be what the campaign paces towards. You will be billed based on a net CPM associated with that product. For example, let's say you have a client that wants to run Programmatic OTT. You would sell them on a certain number of OTT impressions at whatever CPM you determine is best. In this scenario, say they want 200,000 impressions (or commercials). Your charge from us would be \$4,998 (200,000 impressions at our \$24.99 net CPM). When the campaign is started, the client will receive 200,000 OTT impressions.

Platforms Included: Programmatic Display, Programmatic Video, Programmatic OTT, Programmatic Audio, Email.

SEO/AEO/GEO

Our SEO/AEO/GEO **billed on a flat rate** associated with a determined set of deliverables. We work our deliverables on a Quarterly basis which are fully mapped out by month. Our Quarterly plans are broken down and billed for monthly payment.
